## ABOUT ME

---

I am a highly motivated Junior Software Engineer with a passion for developing innovative solutions using cutting-edge technologies. With experience in full-stack development and a strong background in algorithm optimization, I have completed several projects showing my growth as a computer scientist. In addition to my work experience, I am currently pursuing a bachelor's degree in computer science at Shippensburg University, where I am honing my skills and gaining a deeper understanding of the industry.

## WORK EXPERIENCE

---

### Cinteot

*Junior Software Engineer*

**Mar. 2022 – Present**

*Chambersburg, PA*

- Responsible for the design, development, and maintenance of projects.
- I use a variety of programming languages such as Python, JavaScript, HTML, and CSS.
- Test and debug code.

## EDUCATION

---

### Shippensburg University

*Pursuing a bachelor's in computer science*

**Aug. 2019 - Present**

*Shippensburg, PA*

- Dean's List
- Member of Phi Theta Kappa Honor Society

### Hempfield High School

*General Education*

**June 2015**

*Landisville, PA*

## PROJECTS

---

### Predictive Analysis Calculator

- The Predictive Analysis Calculator is a project that uses TensorFlow and an LSTM (Long Short-Term Memory) model to predict future results based on input data. This allows for advanced analysis and forecasting capabilities.

### Ship-Shell

- Ship-Shell is a powerful shell program developed in C that comes with a set of essential built-in commands including cd, path, and exit. The program is also designed to execute external programs.
- <https://github.com/Akeon201/ship-shell>

### Strassen Algorithm Research

- This project investigates the performance of Strassen's and Brute Force matrix multiplication algorithms, and their optimal combination for maximizing efficiency.
- <https://github.com/Akeon201/Strassen-Algorithm-Research>

## SKILLS & INTERESTS

---

- **Skills:** C, C#, CSS, Django, Git, HTML5, Java, JavaScript, Python, Sentiment Analysis, SQLite, TensorFlow, Unit Testing
- **Interests:** Fishing; Linux; Manga; Programming; Reddit; Skiing; Traveling; Video Games; Windows;
