ABOUT ME

I am a Software Engineer with a passion for developing custom solutions using cutting-edge technologies. I have worked alongside others developing technologies that include sentiment analysis and artificial intelligence. In addition to my work experience I am currently pursuing a bachelor's degree in computer science, where I am honing my skills and gaining a deeper understanding of the industry.

WORK EXPERIENCE

Cinteot

Software Engineer

Mar. 2022 – Present

Chambersburg, PA

- Responsible for the design, development, and maintenance of projects.
- Python, JavaScript, HTML, CSS, C#.
- Test and debug code.

EDUCATION

Shippensburg University

Bachelor of Science (B.S.), Computer Science

Anticipated Graduation: December 2024

GPA: 3.3

- Member of Phi Theta Kappa Honor Society

Aug. 2019 - Present

Shippensburg, PA

CERTIFICATIONS

CompTIA Security+

Aug. 2023

PROJECTS

Predictive Analysis Calculator

- The Predictive Analysis Calculator is a project using TensorFlow and an LSTM (Long Short-Term Memory) model to predict future results based on time-series data, enabling advanced analysis and forecasting capabilities.

Isolation

- Isolation is a board game in which two players alternately move their pawns and remove a tile after each move. I created an AI opponent for this game using the minimax algorithm, a classic adversarial search method that determines the best move by evaluating all potential sequences of moves of both players at a certain depth level.
- https://github.com/Akeon201/Isolation_board_game

Ship-Shell

- Ship-Shell is a powerful shell program developed in C that comes with a set of essential built-in commands including cd, path, and exit. The program is also designed to execute external programs.
- <https://github.com/Akeon201/ship-shell>

SKILLS & INTERESTS

- **Skills:** C, C#, CSS, Django, Docker, Git, HTML5, .NET, Java, JavaScript, Python, Sentiment Analysis, SQLite, TensorFlow, Unit Testing
- **Interests:** Fishing; Linux; Manga; Programming; Reddit; Skiing; Traveling; Video Games; Windows;
